
Consent for Services

- Educational Psychology -- Speech-Language Pathology
-- Occupational Therapy

- Assessment is required to ensure appropriate programs are in place to meet the diverse needs of children.
- The information obtained will provide direction for appropriate educational programming and support.
- Services offered after assessment has been completed may include: direct treatment, program/equipment recommendations, consultation with outside agencies, and monitored progress to determine if direct treatment is required at a later date.
- "This assessment may be completed by a provisional licensee or an intern under the supervision of a registered/licensed student support services personnel."

Consent for Services

I understand that following the initial assessment(s), I will be informed of the results and the results may be used to guide the educational programming for my child.

I/we the parents/guardians of _____ D.O.B. _____
give permission for services to be provided by the following of Northwest School Division #203:

- Educational Psychologist Occupational Therapist
 Speech-Language Pathologist

Your child may require ongoing services while he/she attends school in the Northwest School Division. These services will be continuous until the school-based team or parent decides otherwise. Should you decide your child no longer requires services, please contact the Student Services office at (306) 236-5614.
