# 5.1: Staffing PTR Projections

BACKGROUND		

School staffing levels contribute to a large proportion of the school division budget. A formula relative to the funding model is used to staff schools.

#### **CURRENT STATUS**

Senior administration has followed a staffing formula with a PTR of 14.0. The Board requested a presentation of a PTR increase of 0.5 and 1.0.

Moving forward the following questions need to be addressed: Does the Board wish to continue to follow the current staffing formula?

#### PROS AND CONS

Formulas are based on factual numbers. At times it does not allow for a decrease or increase as it may be a percentage. Small schools do need a certain level of staffing to operate and would require an "override" to the formula.

The Ministry of Education has changed their capital request process. The Facilities department presented our capital needs at the January 12, 2023, meeting.

#### **CURRENT STATUS**

The school division is required to submit their top capital priorities in a new format. Board approval is required to prioritize the projects. Capital submissions must be made to the Ministry by March 8, 2023. The current year recommendations are included as a reference; therefore, the Board must make a motion approving the capital priority list. Business cases for each project have been prepared by an external consultant to be submitted with the capital request once approved by the Board.

The Ministry has created a new program to address Capital needs beyond those of the existing Major Capital List. School Divisions are required to submit applications for a maximum of two projects by March 8, 2023 for consideration in the 2024-2025 government budget. Projects submitted must range in cost from \$1-10 million and must be completed within two years to be eligible. Projects previously submitted through the Major Capital Program cannot be resubmitted through the Minor Capital Renewal Program. Eligible capital projects would include structural repair, renovations, additions, and right-sizing of schools.

#### **CURRENT STATUS**

The current Major Capital List for NWSD includes three projects that have not made the Ministry top 10 Priority List in several years. It is recommended by the Facilities department that we submit one of those three projects as major renovations under the new Minor Capital Renewal Program. Details are provided in the attached file.

That a recommendation to submit two projects to the Ministry of Education for consideration under the new Minor Capital Renewal Program be approved.

1	Jubilee	Major Renovation	\$ 1,846,427	N/A	\$ 3,040,395	13.40%	1. No study 2. Ministry data suggests that by 2028 there will be a backlog of \$5.5 million 3. Might warrant a new school based on Ministry data (critical FCI rating in 2027)
2	Lashburn High	Major Renovation	\$ 582,452	\$ 3,905,842	\$ 4,166,781	2.80%	1. Study complete, suggests renovation. 2. Ministry data indicates that there will be renovation costs of \$4.8 million in 2028 3. FCI does not reach critical by 2029 - renovation would be recommended. Based on Ministry FCI ratings, would have the highest non-critical score in the NWSD in 2029. 4. 2024 shows a low FCI rating which might hurt our ability to obtain funds.

Jubilee has a high FCI rating /costs for 2024. This site may trigger a new school in the near future with critical FCI rating in 2027. Lashburn High would fall in at #2 as we have a study done, with a recommendation for a major renovation (not on our radar for a new school) but a lower current FCI rating may impact our ability to

Green Acre has our highest current FCI rating (small schools) but the Ministry indicates that the cost for repairs will climb to \$1.8 million by 2028. This might be our best option as we will more than likely not replace the school but could obtain funds for a major renovation to extend its life and take pressure off using PMR funds
