## What is it?

Under the guidance of a Michif teacher and Language Keeper, this program will connect children with Metis culture and language within Kindergarten programming.

All programming is based on the curriculum determined by the Saskatchewan Ministry of Education and students receive the same high-quality education as other students in Northwest School Division.

## Where is it?

We will determine which Meadow Lake elementary school the program is hosted at based on the students who register.

Because this is a special opportunity there are no boundaries and students from across Meadow Lake are eligible to attend. Transportation will be provided.

## Why should my child attend?

Students will:

- Develop early Michif language literacy, numeracy and motor skills along side the English language
- Build important skills in an inclusive play-based environment
