

June Newsletter

Themes:

This month we will be talking about Father's Day and summer fun. **Please send two firm baking apples by June 11 for a surprise we are baking up.**

Show and Tell:

Our topic for sharing this month will be anything to do with summer. If your child would like to give the clues and have everyone guess please remember to send it in a bag and remind them not to show everyone at recess. :)

Parent Volunteers:

Thanks for all your help this year. We just couldn't do what we do without you. We will not be having volunteers the last two weeks because our schedule gets less predictable. So if you volunteered and don't see your name on the calendar that is why. Thanks to the parents that helped out at Track and Field and our trip to the farm. Thank you in advance to all the parents who volunteered for Silver Lake. Thank you also for the time everyone has spent reading and doing homework calendars. We will not be sending home the books in the bag in June as everyone's schedule gets too hectic. Please continue to read over the summer by contacting the library downtown and ordering books online. You can also access books online

through the school's membership at RAZkids. I am attempting to get passwords so I will send those home. You can find the website on our school web page. This is a great resource for leveled books. Also Lakeland library has a great site called Tumblebooks. Starfall is another resource for easy read books. You have been a great group of parents to work with and the students' successes are directly related to the importance you have placed on school.

Splash Park:

We would like to go to the splash park the last week of school so please just put a towel and a bathing suit in the backpack and leave it in for the week so it is there when we need it. It is difficult to predict which day we will go because of the weather. So if the suit and towel are there we can go when it works.

Upcoming Event

June 4: ALL library books due

June 11: send two apples

June 18/19: visit Grade one
